COVID-19 Coronavirus Safety Measures Update

The health and safety of our customers, guests and employees is of the utmost importance to us. We are doing everything we can to keep everyone safe, while still providing services for as long as we can, to the best of our ability.

- Our offices continue to observe enhanced disinfection of all public spaces and work spaces.
- We encourage all of our employees to wash their hands with soap and water, frequently throughout the day, for at least 20 seconds, or to use hand sanitizer with the approved levels of alcohol, as well as to observe proper social distancing.
- We have moved some employees to a work-from-home status and will continue to add to that group as adjustments are made within our branches.
- Our guidelines will change as we monitor the guidance and orders issued by all local, state and federal authorities including the departments of health and the Centers for Disease Control.
- We will be encouraging our closing managers to dissuade or reject closings in customers' homes and to restrict attendance at all closings to only those parties who are absolutely required to attend. We love seeing our real estate agent partners and the sellers, but we must limit the number of people that gather in our settlement spaces.
